

in the base period, may apply to the Executive Vice President, CCC, for an allocation.

(1) Applicants must demonstrate their ability to process, produce, and market sugar for the applicable crop year.

(2) CCC will consider adverse effects of the allocation upon existing processors and producers.

(3) New entrant cane processors are limited to 50,000 short tons, raw value, the first crop year.

(4) New entrant cane processors will be provided, as determined by CCC:

(i) A share of their State's cane allotment if the processor is located in Hawaii, Puerto Rico, Florida, Louisiana, or Texas, or

(ii) A share of the overall cane allotment if the processor is located in any state not listed in paragraph (f)(4)(i) of this section.

(5) CCC will conduct a hearing on a new entrant application if an interested processor or grower requests a hearing.

(6) If a new entrant acquires and reopens a factory that previously produced beet sugar from sugar beets and sugar beet molasses, but the factory last operated during the 1997 crop year, CCC will:

(i) Assign an allocation to the new entrant not less than the greater of 1.67 percent of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years, as determined under § 1435.307, or 1,500,000 hundred-weight.

(ii) Reduce all other beet processor allocations on a pro rata basis.

[69 FR 39813, July 1, 2004, as amended at 69 FR 48765, Aug. 11, 2004]

§ 1435.309 Reassignment of deficits.

(a) CCC will determine, from time to time, whether sugar beet or sugarcane processors will be unable to market their allocations.

(b) Sugar beet and sugar cane processors will report to CCC current inventories, estimated production, expected marketings, and any other pertinent factors CCC deems appropriate to determine a processor's ability to market their allocation.

(c) If CCC determines a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will be reassigned by June 1:

(1) First, to allocations of other sugarcane processors within that State based on each processor's initial allocation share of the State's allotment, but no processor may receive reassigned allocation such that its allocation exceeds its estimated total sugar supply.

(2) If the deficit cannot be eliminated after reassignment within the same State, be reassigned to the other cane States based on each State's initial share of the cane sugar allotment, but no State may receive reassigned State allotment such that its allocation exceeds its estimated total sugar supply, with the reassigned quantity to each State being allocated according to paragraph (c)(1) of this section.

(d) If CCC determines that a sugar beet processor is unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will:

(1) First, be reassigned proportionately to allocations of other sugar beet processors, depending on the capacity of other processors to fill the portion of the deficit to be reassigned to them, accounting for the interests of associated producers.

(2) If the deficit cannot be eliminated by paragraph (d)(1) of this section, be reassigned to CCC. CCC shall sell such quantity from inventory unless CCC determines such sales would have a significant effect on the sugar price.

(3) If any portion of the deficit remains after paragraphs (d)(1) and (d)(2) of this section have been implemented, be reassigned to imports.

(e) The crop year allocation of each sugar beet or sugarcane processor who receives a reassignment will be increased accordingly for that year.

[67 FR 54928, Aug. 26, 2002, as amended at 69 FR 55063, Sept. 13, 2004; 69 FR 58037, Sept. 29, 2004]

§ 1435.310 Sharing processors' allocations with producers.

(a) Every sugar beet and sugarcane processor must provide CCC a certification that:
